

Environmental Policy Statement

AUGSCAPE AUTOMOTIVE LIMITED

Revision Date: 22 November 2022

Includes the Organisation and Arrangements for Health and Safety Management.

The company believes that good environmental performance is not only a moral duty, but is fundamental to business success. The Managing Director takes overall responsibility and is ultimately responsible for Environmental matters within the Group, and is responsible for formulating and implementing the policy, ensuring the company's Environmental policy is produced and maintained.

The company requires that high standards of Environmental Performance are achieved and maintained. The management and health and safety consultants are responsible for ensuring this by coordinating, implementing, reviewing the policy arrangements on site in line with legislative and other requirements whilst maintaining the site so ensuring the environmental footprint, environmental aspects and impacts are managed and controlled so maintaining the commitment to protect the environment.

A summary of the policy is detailed below in this Environmental Policy Statement:

- Are committed to achieving high standards of Environmental Performance which will be achieved through the implementation and continual improvement of our management systems and Environmental Performance.
- Are committed to adopting a clean as you go policy, ensuring all sites remain clean and tidy.
- Will balance the need to achieve business aims with the need to satisfy rising environmental aspirations, to improve the quality of the environment in local communities which may be affected by our operations.
- Will ensure that Environmental concerns are addressed at the planning stages of any works ensuring all social and local impacts are considered.
- Believe that environmental incidents are preventable within the scope of the company's activities and are therefore committed to maintaining a positive culture and zero harm to the environment, ensuring systems are in place and maintained so as no pollution incidents occur, report and investigate any hazards, near misses or incidents.

- Believes that Environmental Matters are equal to all other matters, Safety, Health, Quality, Financial, and Commercial, operational and will contribute to business performance by ensuring positive measures are in place for Waste Minimisation, Environmental Control and a positive company image.
- Are committed to adopting systems for waste minimisation and recycling, only after this consideration will responsible disposal be undertaken.
- Ensure Mechanisms are in place to produce Environmental Targets and Objectives and that such targets and objectives are communicated to all employees where applicable.
- Will maintain Environmental Communications via management briefings and Environmental communications.
- Will seek the involvement of, and will consult with employees on Environmental Matters.
- Will seek and expect the support and cooperation of all employees in matters relating to the Environment.
- Ensuring monitoring of Environmental matters takes place in the following manner:
 - Managing Director: Will regularly visit site and complete a senior managers Inspection document.
 - Subcontractor Self Assessment: On a regular basis each subcontractor shall complete a Self Assessment document.
- Ensure the Environmental Policy will be made available to any interested parties and will be reviewed on an annual basis or after changes in legislation, re-communicating the reviews to all employees and stakeholders.
- The Managing Director commits to providing adequate financial and physical resources to ensure delivery of the policy requirements.

Signed.

K Robinson
